PREPARATION CHECKLIST FOR RESIDENTIAL SPRAY TREATMENT FOR COCKROACHES

All persons will be required to be out of the residence for at least 6 hours during and after the treatment. Pregnant women and asthmatics should be out of the residence for at least 24 hrs. Fish tanks should be covered and the filtration and air supply shut off until you return 6 hours after treatment. Birds, dogs, cats, reptiles, hamsters etc will be required to be out of the residence at least 6 hours as well.

BEFORE your scheduled appointment these necessary steps must be taken otherwise treatment will not be performed.

- Empty all dishes, pots, pans from shelves and cupboards and place on kitchen table covered by plastics.
- Empty all drawers, cupboards, pantry and shelves in kitchen and bathrooms and under the stove.
- Remove all food stuffs and place in fridge or out of the kitchen away from treatment areas.
- Check boxes that contain food and any boxes in general for evidence of cockroaches or droppings. Throw any items out if you find them infested.
- Vacuum and wash all cupboards as you empty them before the treatment. This will reduce any possible food scraps that the cockroaches may be feeding on and will expedite their elimination.
- Turn off any the aquarium aerators and cover fish tanks.
- Remove all pets (birds, hamsters, cats, dogs, etc.) for at least 4-6 hours.
- People should be out 4-6 hours. Pregnant women, asthmatics and children under 1 year of age should be out of the home for 24 hours.
- Upon putting dishes back after the treatment place wax paper on the shelves. Do not wash down the shelves off as this will remove the treatment.
- Seal any holes, cracks and crevices around the plumbing and walls as this will reduce the number of potential hiding places for cockroaches.
- Fix any leaking taps in bathrooms and kitchens as cockroaches need water in order to survive.
- Reduce any unnecessary clutter and keep things as clean as possible. Do not leave dirty dishes out over night.

If you have any questions you may call Pest Arrest Pest Control Services for further clarification 705-878-3378 or 705-760-5696.
